Badge-free mobile access control

Akidaia offline solution

Akidaia is revolutionizing access control with a 100% mobile, offline, and badge-free technology, designed to operate without network, connectivity, or IT infrastructure. Ideal for complex environments: construction sites, remote locations, and sensitive areas.

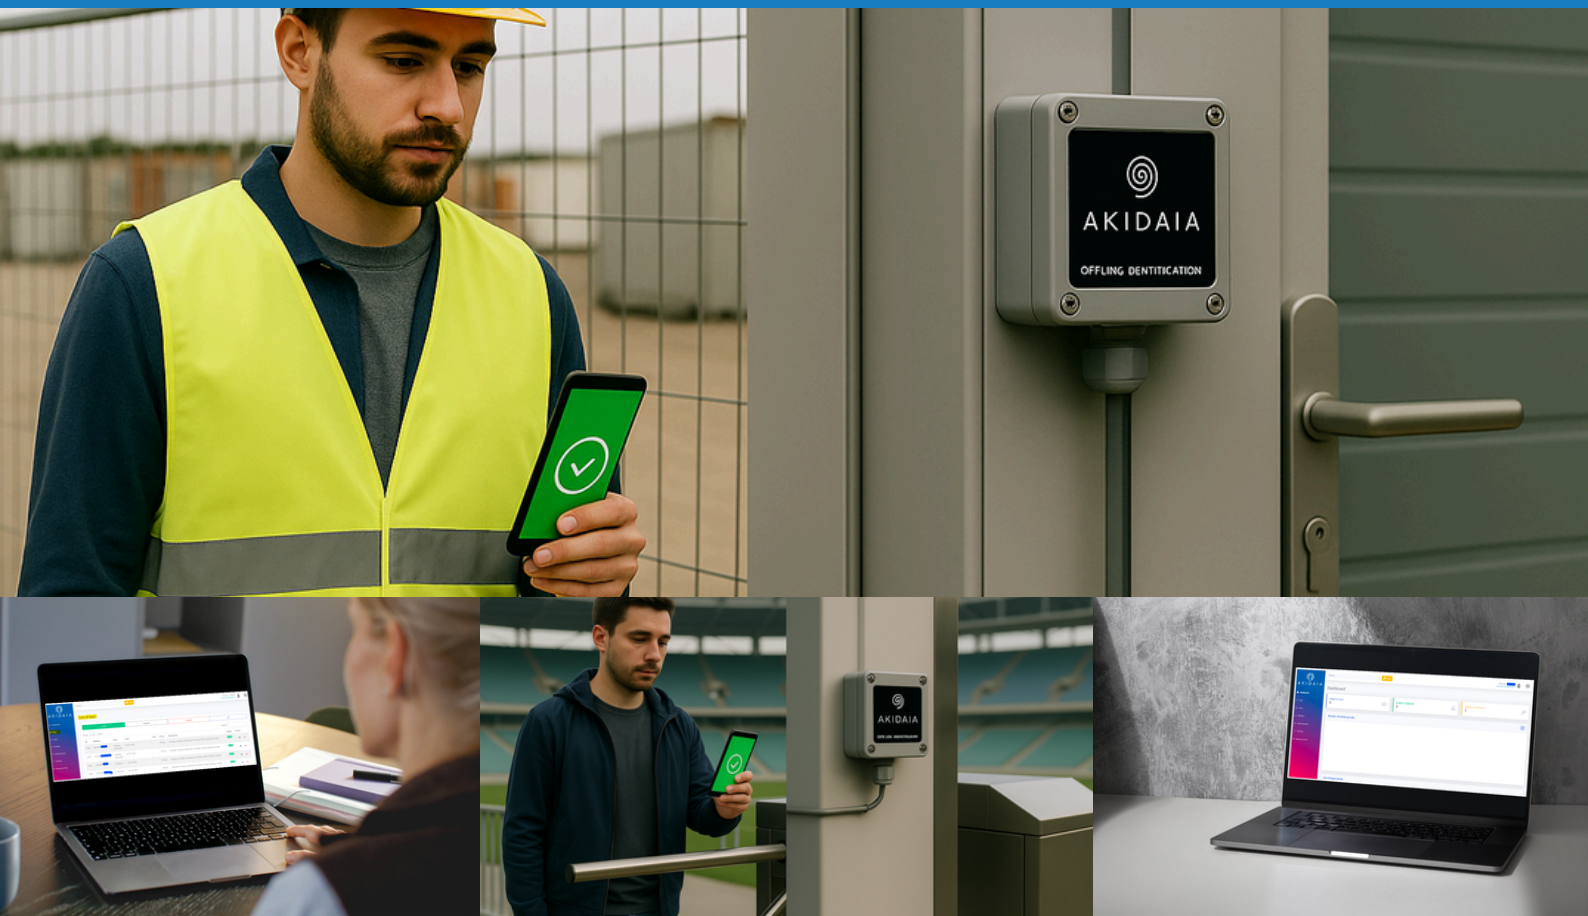

Key advantages

- Sovereign-level security: decentralized data and resilient architecture
- Quick and easy setup: less than 10 minutes
- Smartphone access: via secure Bluetooth, no badge required

AKIDAIA

OFFLINE IDENTIFICATION

No badge. No connection. No compromise.
An offline solution designed and manufactured in France.

A technology built for the field

The solution is based on a minibox installed on site and a mobile app.
From a simple web interface, the administrator remotely assigns access rights.

The user downloads their access once to their smartphone and uses it offline via secure Bluetooth.
Access is seamless, fast, and fully autonomous — even without a network.

Your phone becomes your key.

A french deeptech company

Founded in 2020 in Nice, Akidaia is certified DeepTech by Bpifrance and supported by Vinci, Bouygues, ESA BIC... Biotime offers this solution to meet your most demanding access control needs.

Benefits

- Remote access management
- Installation in under 10 minutes
- Works without badges or network
- Perfect for temporary or remote sites
